

## REMARKS

The Office Action (bottom of page 10) indicates claim 12 has allowable subject matter. Accordingly, claim 12 is canceled and its limitation is added to base claim 1. Claim 1 is therefore now patentable over the prior art.

To overcome the lack-of-enablement rejection of claim 1, "oxidation" in claim 1 is changed to "electrochemical oxidation" as suggested by the examiner. Claim 1 is therefore now allowable.

Additionally, all withdrawn claims (claims 4, 14-23, 26-31 and 33-48) are canceled by this Amendment. The remaining claims (pending claims 2, 7-11, 13 and 49-52 and new claims 53-66) all depend from base claim 1 which is patentable over the prior art as described above. The limitations that the dependent claims add to claim 1 distinguish them further from the prior art, thus rendering the dependent claims also patentable.

The application is therefore now be in condition for allowance, and allowance is requested.

Respectfully submitted,

Mitchell Rose, Patent Agent
